BRITISH BLOCKADE NICARAGUAN PORTS

WARSHIPS SHUT OFF ALL THEIR COMMERCE.

This Move This Morning Was Not a Great Surprise, as the Minister at Washington Had Been Notified by Cable That John Bull Would Enforce Demands.

Washington, April 24 —The blockade of all Nicaraguan ports by the British was begun this morning. This course was not at all unexpected as the Nicaraguan minister here had received a cablegram from his government announcing the arrival at Corinto, Nicaragua, of two British war ships with the expressed purpose of enforcing the demands contained in the British ultimatum. Just how this is to be done the minister was not informed. The indications now are that Nicaragua will offer a passive resistance to the British demands for some time at least, and meanwhile the United States will do nothing but await developments of events, unless the British take some action that affects our purely selfish interests, such as interfering with our shipping or other interests of American citizens.

This attitude is assumed in the full confidence that no attempt will be made by the British to secure any Nicaraguan territory, no matter what course she may be obliged to pursue to accomplish her purpose of collecting the "smart money" demanded for the expulsion of Consular Agent Hatch.

There is reason to believe not only the Nicaraguan affair but the whole subject of the extent of the protection to be extended by the United States to the sister republics of Central and South America has been earnestly and deliberately discussed by the President with his full cabinet and that the attitude, as assumed in the case of Nicaragua, may be taken as an indication of the line of policy to be adopted for the treatment of all questions arising between the European powers and these republics having such a basis as the present Nicaraguan incident.

ENGLISH CRITICISM.

London Chronicle Talks of the Monroe Doctrine.

London, April 24.—The Chronicle says the dispatch of British men of war to Corinto shows that the Nicaraguan affair is approaching a climax. Nicaragua, it adds, obviously relies on American sympathy, but surely if America takes these small communities under her wing she must see that they maintain international observances. The Monroe doctrine is proper enough in its way, but it will hardly prevent a European power which is not desirous of territorial aggrandizement from enacting reparation for insult and outrage.

Will Not Bombard Corinto.

Victoria, B. C., April 24.—The rumor that the Royal Arthur, the flagship of the Pacific squadron, is to bombard Corinto, Nicaragua, is not credited in naval circles here. Officers of the Nymphe say they heard the same thing at San Francisco and laughed at the story. The Arthur is expected here shortly, orders having been received to hold her mail.

Britain May Accept Terms.

Managua, Nicaragua, April 24.—It is believed in well-informed circles England will accept the terms offered by this government. British Minister Gosling is reported to have said his government has made no promise to replace Chief Clarence in power. It is popularly believed the government will cede Corn Island to England.

May Lose Her Prestige.

Port Limon, Costa Rica, April 24.—The newspapers are saying the United States must show the Monroe doctrine is not a dead letter or else lose her prestige in Latin-America.

Ready to Help Nicaragua.

Tegucigalpa, Honduras, April 24.—Troops are being sent to both coasts and it is reported 5,000 soldiers will be held ready to obey orders from President Zelaya of Nicaragua.

A GREAT LABOR BODY.

Debs' Opinion of the American Industrial Union.

Terre Haute, Ind., April 24.—President Debs of the A. R. U. says he knows nothing about the American Industrial Union organized in Chicago Sunday, except what he has seen in the the newspapers. He thought its scope of operations provides a huge task, which if accomplished would make the order the greatest of labor organizations. Speaking of the contempt case against himself in the Supreme court he says he does not believe he or his fellow-directors will ever spend another day in jail. He is confident the Supreme court will reverse Judge Woods.

Mrs. Parnell Dying.

New York, April 24.—Mrs. Parnell is in a critical condition at Bordertown, N. J. The county officials are urged by the citizens to offer a reward for the arrest of the assailant of the aged woman. Last night Mrs. Parnell was so much worse the physicians in attendance despaired of her life. They say now they have little if any hope of her ultimate recovery, and that they would not be surprised if she did not live through the day.

Secretary Morton Is Censured.

Omaha, Neb., April 24.—The Omaha Live Stock exchange censured Secretary Morton for his "erroneous idea, which is at present working to the great detriment of the catle interests of the country, in creating a wrong impression as to the relative cost of cattle and beef."

AS JACKS-IN-A-BOX.

Chinamen Smuggled Across the Border in Coffins.

Montreal, Que., April 24.—There is great excitement in Chinese colony because the scheme of a gang of smugglers who brought about fifty Chinamen into the United States by means of coffins and women's clothes, has been exposed. Sam Keefi the head of the colony, and archsmuggler of human and other forbidden articles of import, smiled as he denied any personal knowledge of the affair, but there is no douht many of the men passed through here. The customs officials have traced the gang and it is expected important arrests will be made soon. Though the collector here refuses to talk it is well known that several "specials" have gone to St. John, N. B.

There is another gang, however, which the officials appear to be after and which operated by a more direct route. Their specialties are the smuggling of phenacetine, which has taken the place of opium, because opium now gives an exceedingly small profit.

MUST PAY OR FIGHT.

Great Britain Gives Nicaragua Three Days to Meet Demands.

Managua, Nicaragua, via Galveston, Tex., April 24.—Commander Stokes of H. M. S. Royal Arthur, which is at Corinto with the Satellite and Wild Swan, arrived here last evening, and, at the end of a conference which lasted only ten minutes, handed the Nicaraguan minister of foreign affairs, M. Matus, Great Britain's ultimatum. The ultimatum gives the government of Nicaragua three days in which to settle the claim by Great Britain, failing which settlement England will blockade the Port of Corinto and also land troops and occupy the city. A meeting of prominent Nicaraguans is being held now to decide upon a plan of action. The general opinion is that Nicaragua will arrange to pay the indemnity demanded by Great Britain.

On Record for Gold.

Chicago, April 24.—Members of the Iroquois club, the leading democratic organization of Chicago, last night repudiated the monetary planks of the democratic national platform of 1892. They also refused to support the financial plank of the state convention of 1894. This action was taken in the face of the declarations by a number of members of the club that those voting against the monetary planks of the conventions were voting themselves out of the party. This action was taken at a special meeting of the democratic organization which had been called by those members who believed that the issuance of silver at the ratio of 16 to 1 was inexpedient and for the purpose of putting the club on record on the money question.

Sustains a Loss by Fire of $125,000.

St. Paul, Minn., April 24.—Fire yesterday afternoon at 2 o'clock in the manufacturing and wholesale house of Lanphen, Finch & Skinner resulted in a loss of $125,000. The loss on the building is trifling. Fifty girls working on fur garments became panic-stricken, but no one was injured. The insurance more than covered the loss, aggregating $160,000.

Garment Workers on Strike.

New York, April 24.—Two thousand coat pressers went on a strike yesterday in 112 shops, throwing 2,000 girl buttonhole makers, button sewers, and bushelers out of work. They struck because the bosses refused to sign the new agreement drawn by local assembly No. 72, Knights of Labor, and the United Coat Pressers' association, of which the strikers are members.

Failure of a Dime Savings Bank.

New Haven, Conn., April 24.—The Dime savings bank at Willimantic, Conn., closed yesterday. The last bank commissioner's report shows that the savings bank had Oct. 1 2,887 depositors, $626,591 on deposit, and a surplus of about $23,000.

Springfield Miners' Decided Stand.

Springfield, Ill., April 24.—At a mass-meeting of miners of the Springfield sub-district held here resolutions were passed by an almost unanimous vote that the miners would insist on at least 40 cents per ton gross, the coming summer. The present rate is 45 cents, but the operators have decided to reduce it to 35 cents May 1.

Texans in Line for Silver.

Austin, Tex., April 24.—About 100 members of the Texas legislature met in caucus last night and decided that a vigorous silver campaign should be inaugurated in every section of the state at once in order that, when nominations are made for the state ticket two years hence, the lines should be drawn as between silver and gold-bug democrats and that the silver democrats should have the preference.

THUG FELLS CLARKE AND TAKES $150

A CAMPBELLSPORT FARMER NEARLY KILLED.

Burly Tramp Knocked Him Senseless as He Was About To Enter His Barn, and After Rifling Clarke's Pockets, Made His Escape—Clarke Will Probably Die.

Campbellsport, Wis., April 24.—A tramp committed a bold highway robbery near here last night and the case will probably also develop into murder. Edward Clarke, a farmer, went to his barn last evening and when he opened the door a burly tramp jumped on him, dealing him a stinging blow. Clarke staggered backward a few steps and then fell senseless. The tramp lost no time in searching Clarke's pockets and secured $150 in cash, which Clarke had in his wallet, after which he succeeded in escaping. Clarke is lying at the point of death from the effects of the blow and his recovery is very doubtful.

San Francisco, April 24.—It is now certain that W. H. T. Durant will seek to establish an alibi and that will be his defense to the charge of murdering Miss Williams, and also in the case of Miss Lamont, of which he is suspected. Yesterday's preliminary examination, however, brought out an important witness, whose testimony will prove damaging to the defense's programme. Durant denied having met Miss Williams during the three weeks before her death. Three girls and a woman testified that they saw him in the vicinity of of the church on the night of the murder, but only one of them was certain in her recognition of Durant. J. B. P. Hodgson, who lives within a few doors of the church, testified positively on this point. He says that on the night of the murder he saw a young man and a young lady at the church gate. Their appearance as described by him tallies with that of the accused and the dead girl. The man was urging the girl to consent to some proposal and she was demurring. As Hodgson passed them the young man looked him square in the face, and he identifies Durant as the man.

Shoots a Liquor Dealer.

Seattle, Wash., April 24.—Harry Frazier, proprietor of the Northern hotel bar, was fatally shot yesterday by P. D. Page of Mitchell, S. D., owner of a large ranch and a member of one of the best families in Milwaukee. Page came here April 12 with W. A. Hager, a Chicago attorney. Hager says Frazier and his friends were drugging Page to get his money. Page's father was formerly chief of police and afterward mayor of Milwaukee, and his uncle, Hiram Barber, is a master in chancery in Chicago. Frazier will die.

Accused of Killing His Son.

Columbus, Ind., April 24.—The continued absence of the young son of John Long, a farmer living ten miles southeast of here, has resulted in the arrest of the father on suspicion of having murdered his child. The boy, who is 13 years old, has been missing since Saturday morning, when he went to feed some cattle at the command of his father. News of his disappearance and of the supposed act of the father was brought by the boy's mother.

Chicago Mystery Cleared Up.

Chicago, April 24.—The identity of the woman who drowned herself and little child in the lake at the foot of Forty-Eighth street on Monday afternoon was established yesterday. She was Mrs. Mattie S. Morrison, Who lived in Clifton, Ill., and the child was her son. The drowned woman was divorced from James P. Morrison, a well-known real estate dealer in Clifton, Ill., a little over two years ago. She was in the utmost poverty, and despondent.

COURT WITH DEBS.

Belief That the Labor Leader and His Associates Will Be Released.

Washington, April 24.—Monday next the Supreme court is expected to hand down its decision in the Debs contempt case. The decision of the lower court, made by Judge Woods, will be reversed and the writ of habeas corpus asked for by Debs and his associates, relieving them of imprisonment for contempt for disobeying the orders of the court, will be granted. At least, this is the expectation of the lawyers who have carefully watched the case and of gentlemen who are in a position to know something of the progress which the Supreme court has made in its consideration of this case.

Kentucky Republicans for Silver.

Lexington, Ky., April 24.—The republicans of Woodford county, Senator Blackburn's home, have met his ultra silver interview with the most radical utterances heard this year from anti-free coinage ranks. In their convention to select delegates to the state convention they declared for a single gold standard, with only one dissenting vote.

Japanese Tariff.

Washington, April 24.—Japan's right to frame her own tariff rates on United States goods has now accrued under the terms of the new Japanese treaty with the United States. Minister Kurino of Japan says the Japan rate will remain at 5 per cent ad valorem until the new act is passed.

To Shut Out Americans.

Ottawa, Ont., April 24.—Major Roderick MacLennan, member for Glengarry, has given notice of his intention to introduce a bill preventing the government from giving contracts to aliens. RUSSIAN WARSHIPS ARE READY

Will Enforce Any Demands the Triple Alliance May Favor.

St. Petersburg, April 24.—The Svet declares Russia has concentrated in Japanese waters twenty-two warships, carrying 360 guns and a large body of men. This fleet, it is added, with the French squadron makes a total of thirty-seven warships, carrying 610 guns. Moreover, according to the Svet, a Russian army of 20,000 men could occupy the Island of Yesso, the northernmost of Japan, and take Japan in flank should trouble arise.

Will Not Touch Customs.

Yokohama, April 24.—It is officially denied that the Chinese customs, by the terms of the treaty of peace with Japan, are placed under Japanese control. The stipulation says that on the first payment of the two installments of the indemnity to be paid by China Wei-Hai-Wei might be evacuated provided China pledges her customs revenue in order to insure the payment of the balance due. This, it is added, is optional and might never take effect. At present there is no intention of touching the customs revenue of China, much less placing it under the control of Japan.

Only a Friendly Protest.

Berlin, April 24.—The action of France, Russia, and Germany has not yet exceeded a friendly but energetic protest against the Japanese annexing any part of the Chinese mainland, but the Russian minister at Pekin has already been instructed to negotiate with the Tsung-Li-Yamen, the Chinese foreign office, regarding the cession of Chinese territory which Russia demands in compensation for the Japanese acquirements. China being unable to resist Russia's demands hopes to confine them to the cession of a portion of Manchuria and an ice-free port.

Ocean Steamships in Collision.

Naples, April 24.—A collision occurred in the harbor yesterday between the steamer Cyrenian, Capt. Gain, from Antwerp, and the Anchor Line steamer Bolivar, Capt. The Bolivia was considerably damaged and her departure has been postponed until she has been repaired.

England Will Not Interfere.

Bobleter, ex-state treasurer, had received $3,024, of which amount $2,837 was received from the State Bank of Minneapolis and $187 from the American Exchange bank of Minneapolis. Col. Bobleter, against the advice of counsel, turned the money into the state treasury, paying over the full amount to the present state treasurer April 20. H. C. Peterson, ex-treasurer of Hennepin county, Minn., refused to answer any of the questions put to him regarding his deposits on the ground that he might incriminate himself. Nothing damaging was elicted against any other official. A large amount of state funds were invested in banks which have since failed, mostly Minneapolis institutions.

Barbourville Depot, Ky., April 24.—B. Fulton French, the feud leader, threatens to make it warm for the prosecution because it has issued a rule of contempt of court against him and his attorney, Horton Golden, charging them with suborning witnesses. French has wired for several of his most trusted men to come here at once, and it is feared he will yet resort to further bloodshed before the trial is over. The evidence produced yesterday all tended to show that French planned the murder of Judge Combs and hired Fields and Adkins to commit the deed.

Victory for Oleomargarine Men.

Lansing, Mich., April 24.—The manufacturers of oleomargarine and artificial food products won a decided victory in the house yesterday. Those provisions of the Redfern pure food bill requiring that neither oleomargarine nor jellies be colored to make them resemble the pure article were stricken from the measure. There is little doubt all the numerous bills reapportioning the congressional districts of the state will be killed. The house passed the fourth class city bill, providing a general charter for fifty-three cities.

Internal Revenue Receipts.

Washington, April 24.—The total receipts from internal revenue for the nine months of the recent fiscal year ended March 31 were $109,995,015, of which $19,802 was from income tax from persons and $8,855 from corporations, companies, and associations. RRD MEN ARE RESTIVE.

Ready for an Uprising on the Winnebago Reservation.

Pender, Neb., April 24.—The Indians on the Winnebaog and Omaha reservations are eagerly watching for developments in the litigation over leases between the federal representative, Capt. Beck, and the Flournoy Land company. They are quiet, but apparently restless. Their fine of couriers is constantly on the move. They carry information almost as rapidly as it is transmitted by the agency telegraph wire. J. A. Wiltz, a citizen of Pender, said that while the interior department doubtless intends to force the settlers off and lease the lands through Capt. Beck, as representative, the case would be eventually settled in the Supreme court of the United States. Wiltz regretted the fact that many of the Indians had been armed with rifles, and if they became incited officially it might have a bloody sequel.

Lincoln, Neb., April 24.—Lawyers representing some 225 tenants on the land were in court yesterday and were anxious for a hearing immediately. In their regular order the cases can not come up before fall, but interested parties are trying to impress upon the court the seriousness of the situation and hope to secure a decision this week.

INDIANA STIRRED UP.

Hoosier Politicians All Talk About Silver.

Indianapolis, Ind., April 24.—The politicians from both the old parties, who come in from different parts of the state, say the wave of currency discussion is touching every part of Indiana. Even the schoolboys are taking sides on the question. There is still agitation among democrats in favor of a state convention to discuss the currency question. The free silver men in the party are anxious for such a convention. They believe that if they get a convention it will declare for the free coinage of silver. Many of the influential Indiana democrats are rated as free silver men. Some of them have not yet expressed themselves. The only two men of note who have come out against silver are Lieut-Gov. Nye and ex-Attorney-General Smith. Democrats who profess to know say that if the question were put to a vote in this state the position of President Cleveland would miss indorsement by a great many votes.

Decision in a Noted Patent Case.

Cleveland, O., April 24.—An opinion has been handed down by United States Circuit Judge Taft, which decides a famous patent case which has been in court for a number of years. The defendants claimed they had the right of two patents by assignment from Chas. Bradley for a process of separating metals, particularly aluminum, from their ores by the use of an electric current, both to fuse and electrolyze the ores. The plaintiffs, on the other hand, alleged the patent right had been sold to them and that they held letters patent at the department in Washington. The defendants' people also held letters patent and the suit was to determine which party was guilty of infringement. Judge Taft in a voluminous opinion held the defendants had infringed and were not entitled to letters patent. He granted the plaintiffs a perpetual injunction restraining the defendants from using the patent rights and ordered the letters patent held by the Cowles people canceled and declared void.

Big Strike Started Over Boys' Wages.

Chicago, April 24.—A strike has been started in the Chicago Shipbuilding Company on the Calumet river on account of the boys who heat the rivets. Yesterday a committee from the men waited upon officials and asked for an advance in wages for the boys from 50 to 75 cents and $1 per day. This was refused, and nearly all the force of a thousand men at once left. Total suspension of work for some time is feared, as the wages demanded cannot be paid without incurring a heavy loss on the company with its old contracts.

To Advance Rye and Rye Flour.

Cincinnati, O., April 24.—It is currently reported here the corner in rye and rye flour will try to advance prices to $1 per bushel and $4 per barrel. Yesterday rye was held at 75 cents and rye flour at $3.25, the prices two days ago being 48 cents and $2.60. It is reported Charles Fleischman, the distiller, yeast man, and banker, is at the head of the corner on rye and that a large commission house here has cornered all the rye flour in the country.

Saves the Capital for St. Paul.

St. Paul, Minn., April 24.—The fact was made public yesterday that an innocent appearing bill has become a law authorizing the Ramsey (St. Paul) county commissioners to issue bonds for $300,000 for public buildings. Under this law the bonds will be issued and the entire amount loaned to the capitol commissioners, who will without delay begin work on the new capitol building. This will put an end to all talk of removing the capital from St. Paul.

GOOD WORK DONE BY LEGISLATORS

RESUME OF THE SESSION THAT HAS JUST ENDED.

Many Good Neasures Were Passed; the Business Was Transacted Harmoniously; no Bills Were Vetoed, and Snares and Pitfalls Were Avoided.

The session of the legislature which has just closed was productive of many good laws. A well informed correspondent, who was at the capitol during the entire session says that it has to its credit, first and foremost, the passage of a bill for the establishment of a home for the feeble minded. Wisconsin was far behind her sister states in provision for the care of that class of unfortunates and there had been a demand for a state home for a long time. The democratic administration had refused to establish one and it was proper that the first republican legislature should do it. Then it has made provisions for the safe keeping of the priceless historical library that is known wherever students of American history are, and that is another long mark to its credit.

It has created a board of immigration which it is believed will do much to develope the great northern part of the state and may be of incalculable value to the state. Of great moment to the northern part of the state, too, is the law for the preservation of life and property from forest fires, another experiment for which the legislature is to be praised.

The Arbitration Law.

For the workingmen everywhere in the state the arbitration law has been passed and, if it does one-half what its author claims for it, that bill alone will repay all that this session has cost. For the labor unions there is the law protecting their labels and making it a misdemeanor to imitate them or sell goods bearing imitation labels. For the railroad men there is the blacklist bill, and for the street car men the bill compelling the street car companies to put vestibules on their cars by a year from next November. With all this and many less important measures in his behalf the laboring man has no right to complain of the legislature's work.

The farmer, and for that matter the general public, has been protected by the passage of the law relating to filled cheese and butterine. The poor people of the burned district of the north have had $10,000 given them for the purchase of seed grain. The aid to old soldiers has been increased. The soldiers dead have been remembered by an appropriation for battlefield monuments. The soldiers' home saloon bill was killed by dint of hard work on the part of the brewers' lobby, but a two-and-one-half-mile limit was fixed for the Waupaca home, and a way was provided for treating inebriates at county expense. A list of minor beneficial measures might be continued indefinitely.

The Anti Pass Bill.

Many people believe that mistakes, political and otherwise were made in the killing of the anti-pass resolution and in the passage of some other bill, but something of a reform has been made by cutting off the allowance of officials and employes for mileage made on passes, and a very decided reform was inaugurated by passing a bill reducing the number of legislative employes one half. Along the same line were the bills changing the manner of paying the accounts of the state board of control and compelling itemized and verified accounts from all the departments.

The legislature deserved as much praise for killing the things that it killed as for passing the things that it passed.

The session was just the length of the last session, 102 days, and a count will probably show that the number of laws passed were greater.

Worked At A Disadvantage.

It was placed at a disadvantage in many ways from the outset. It had the disadvantage of having been elected by a combination of many elements which had equal claims upon it for the favorable considerations of the principles and ideas advocated by them; it had the disadvantage of following a democratic administration that purposely left things in such shape that the new administration would find itself in a dilemma, either horn of which would be unpopular, and it had the disadvantage of having to face a public opinion that expected too much. If it had complied with half the demands made upon it by conflicting factions it would have involved the state in two years of discord; if it had undertaken to follow democratic precedent in its financiering it would have neglected its duty to the people in the matter of public improvements it was asked to make it would have laid a heavy burden of taxation on the people.

Had No Squabbles.

The relations between the presiding officers and the members were the pleasantest, and during the whole session there was not a single appeal from the decision of the chair in either house. It was remarkable for many things: For the fact that not a single veto was sent in by the governor; for the long and desperate struggles over the church taxation bill, the county option bill, woman's suffrage, the anti-pass resolution, the soldiers' home bill; for the scarcity of passes, and for the fact that in spite of that not a single railroad measure was passed. It worked hard, strived to do what it believed was right, and when its work comes to be tested, it will probably be decided that it was a pretty fair sort of a legislature after all.

WINTER WHEAT IS A FAILURE.

Report of Many Correspondents to the Crop Bulletin.

The weekly weather crop bulletin says that spring seeding was probably never accomplished under more favorable circumstances, and that the soil is in just the right condition. All the small grain is sown, and a good portion of the corn land is made ready for the crop. The planting of early potatoes is now under way. Rain is needed to start vegetation. Grass has made but little progress, and leaves on the trees have not yet started. Oats, early sown, are up and look well: barley promises to be a good crop; rye is everywhere reported in fine condition, having gone through the winter without being injured; clover is generally winter-killed, the loss in most cases being complete. Timothy is all right, but needs rain to start its growth. The condition of winter wheat has improved considerably in the southern part of the state. A majority of correspondents report the winter wheat crop a total failure.

FINE CARRIAGES.

Acres of Them at F. A. Taylor's.

The Henney buggy has stood the test for years, and for that reason gained the confidence of the people. J. W. Henney, at the head of the Henney Buggy Co., began the manufacture of vehicles in 1868, when he says "I sawed hickory bu ts by hand with a cross-cut saw." It was good timber, but awkward getting at it. They use good timber to-day, and with the improved methods for manufacture, a factory of large capacity, equipped especially for the manufacture of high grade work, with skilled labor, and a determination to use only the best materials, are producing the longest lived vehicle to be found in the United States, and this fact is recognized the country over. The "Henney" has many friends, is making more every day. Come down and see the "Lonsdale Carriage," or a new design shell side phaeton or a buggy of any description or take a trip to Freeport if you want something built according to your best wishes, providing we haven't it in stock. F. A. Taylor.

Called to Edgerton.

By special request, our optician, W. F. Hayes, went to Edgerton yesterday to fit glasses. Several people in Edgerton had tried other opticians, but could not get satisfaction, and having heard of Mr. Hayes, they sent to Janesville to have him go over and fit them. He did a remarkably good business, and fit several cases that would otherwise have gone to Chicago. Mr. Hayes' reputation as an expert optician, is becoming known throughout the state, and he is kept quite busy fitting glasses always at, F. C. Cook & Co's.

NEW SCHOOL BOARD MET LAST EVENING

THE OLD OFFICERS WERE AGAIN HONORED.

T. W. Goldin Will Continue as President and John Cunningham Retains the Books—Standing Committees For the Year Named—The Rules of the Old Board Adopted.

President.....THEO W. GOLDIN
Clerk.....JOHN CUNNINGHAM

The Standing Committees—

Finance—Commissioners Clemons, Shearer, Weisend.

Text Books—Commissioners Cunningham, Clemons, Anderson, Shearer.

Buildings—Commissioners Cunningham, Clemons, Anderson, Shearer.

Ventilation—Commissioners Weisend, Anderson, Clemons.

Teachers—Commissioners Anderson, Cunningham, Clemons.

That is the organization of the new school board, as made at a meeting of the commissioners last evening in the city clerk's office, all the commissioners attending the meeting except Commissioners Anderson and McLean. Commissioner Clemons presided at the organization and John Cunningham acted as clerk. The organization was affected without a struggle, there being a few complimentary ballots thrown in making a choice of president.

On taking the chair as presiding officer for another year President Goldin thanked the commissioners for the honor bestowed, and expressed the hope that the proceedings of the new board would be as harmonious as those of the old. He then announced the standing committees.

Cunningham Made Clerk.

John Cunningham was elected clerk on the first ballot, receiving all the votes but one, which was cast for Commissioner Clemons. The rules of the old board were adopted as the rules of the new, and the salary of the clerk was fixed at $250, the same as last year. The finance committee was instructed to look up the matter of insurance on the school buildings and make such recommendations as they thought proper.

The matter of sewerage for the new high school building was discussed, the board deeming it a pressing necessity to have some system of sewerage at once. Being without authority to act, the board expressed a desire that the common council should take immediate steps to construct the sewer, and there being no other business the board adjourned.

The new board is composed of the following commissioners:

At large—A. G. Anderson, T. W. Goldin.
First ward—James Shearer.
Second ward—Fred L. Clemons.
Third ward—John Cunningham.
Fourth ward—R. W. McLean.
Fifth ward—John Weisend.

Decorative Art in Boston.

The new public library building of Boston, upon which a very generous outlay has been made, illustrates the possibility of a general revival in these matters of American civic art and architecture. Not only is the building itself most worthily and intelligently designed to meet the objects in view, but its architecture wins approval from art critics, while it is also setting a good example for our civic administrators by employing the best American talent to decorate its interior with artistic mural designs. The city of Paris has lent great encouragement to a noble form of art by engaging great French artists to paint decorative designs for the interior walls and ceilings of a number of public buildings, even including the public schools, Boston has now entereup upon a policy in this regard which it may well continue to pursue.

Football Beats Politics.

When introducing General Butterworth of Ohio at a Delaware political rally during the recent campaign, the chairman capped a long string of compliments by saying: "The gentleman commends himself to your attention because he is the father of Frank Butterworth, the great American full back." The applause at once became deafening, and the general discovered that his son was even more famous than himself.

The National Provisioner, the organ of the meat and provision trade, says that the recent rise in beef is due entirely to natural causes, and that speculation is in no way responsible for it.

H. O. Armour, the eastern representative of Armour & Co., makes the same statement. The market is so bare of corn fed cattle that less than half the usual number are being slaughtered. This looks reasonable when it is considered that the great grazing districts of the northwest have been so afflicted with drouth during the past two years that thousands of herds of cattle were turned out to die. The great corn belt of Iowa, Kansas and Nebraska was as barren as a desert. It is much easier to account for the rise in beef than for the rise in oil. The latter appears to be speculation pure and simple.

China will gain more in twenty-five years than the cost of her war with Japan, several times over. The conditions of settlement admit foreign capital, factories, railroads, and steamships, and in fact open up to civilization, a country rich in resources, and teeming with population. The American missionary societies should appoint a day of thanksgiving for a war that will accomplish more to civilize and christianize China in a decade than could have been done without it, in half a dozen centuries.

Edward Atkinson, the cook reformer is revolutionizing the cost of living by economical cooking. He has invented an oven that he claims will cook meals for 600 at a cost of 25 cents for fuel. He recently served a seven course dinner to his whist club at a cost of 13 cents each. Mr. Atkinson could not have come to the surface at a better time. Economy is one of the virtues that democracy inculcates and it is also quite the fad this year.

Is there a farmer in the country who can give any good reason why the United States should not raise every bushel of grain that it consumes? Yet it is a fact that under the theoretical democratic administration, the old world is contributing freely to our grain supply.

Every yard of cloth that comes across the water to take the place of a yard that should be produced by American labor is a pleasant reminder of democratic stupidity and ignorance.

The democratic party may not be a unit on free trade, but the reform tariff measures adopted by the present administration are giving the country a taste of free trade pure and simple.

Democracy will enter the next campaign without an issue. Tariff reform is beyond resurrection, and the silver craze will be fully exploited and exploded in less than twelve months.

The new democratic paper in Chicago will be named the "Enquirer." The name is significant. The party is likely to be in an inquiring mood for some time to come.

The lynching of five negroes in Alabama for a crime of which they are now supposed to be innocent, adds another blot to the record of the south.

Chicago democrats need two organs, one for each wing of the party. A combination hand organ will fil the bill after the next campaign.

What's In a Name?

Hundreds upon hundreds of times has this question been asked. It don't make much difference if the quality is there, as a "rose would smell just as sweet by any other name," and an Albemarle Stanhope would ride just as easily, and cost just as little were it known by any thing else. The quality is here, and time will never wear it away. No concern on earth can equal this buggy for the same price. We have had it compared with others, and invariably we wore the blue ribbon away.

The Chicago Packing Houses Notify Them That the Upward Movement Has Reached Its Zenith—Hides and Tallow Didn't Change at All—Other News.

THE Janesville Butchers were informed by the Chicago packers this morning that in their opinion the price of meat had reached the top price. A leading hotel man received two hundred pounds of fancy loins this morning for which he paid the wholesale price of eighteen and one half cents. This meat sold but six weeks ago for nine and nine and one-half cents. Fancy roast beef which the butchers have bought for seven cents now costs twelve and one-half cents. Tallow and hides, it is strange to say, remain at the same price, in spite of the high price of beef.

PUTNAM WAS AFTER HIS FLEEING WIFE

ROCKFORD MAN COMES HERE LOOKING FOR BLOOD.

His Spouce Had Fallen in Love with the Managing Editor of a Janesville Tin Wagon, and Left His Forest City Home—Husband Returned Without Her.

Ray Putnam came up from Rockford yesterday with a deep seated longing for deep red gore. He wanted to kill a Janesville man named Robinson, who is at present the managing editor of a tin peddler's wagon, and a resident of South River street.

The reason that Putnam wanted to shed Robinson's blood was because the latter had stolen away the affections of his wife.

A week ago his wife, with her two children, left his bed and board during the day while he was at work and bought a ticket for the Bower City. When he returned home at night he found his home deserted, his family having wandered from their own fireside.

Mr. Putnam notified the police, who traced the fickle wife to Janesville, and there found her located with Robinson, the tin peddler. The worst feature of it is that this isn't the first time he has proved a disturbing element in the Putnam household. The family formerly lived at Whitewater, Wis,, and twice before Mrs. Putnam has left her husband and gone on a skylarking tour with the wicked tinware artist.

Was Twice Forgiven.

Twice the husband has forgiven and taken back his truant better half. He does not blame her as much as he does Robinson, who has such a strong hold on her affections. He told the police that he had been a faithful husband and father and had always given his family good support. His wife had a long siege of sickness and he is inclined to believe that it affected her mind.

His trip to Janesville was for the purpose of ascertaining whether there is any law in that state through which he can reach Robinson for breaking up his family. He has letters of a love-sick nature written by him to his wife which would prove embarrassing to Robinson in court. Putnam says he is willing to take his wife back for a third trial if she will come for he is in no manner to blame for her actions.

Putnam hunted up Chief Acheson when he arrived and told him the story. He had but little evidence against the couple however, and returned home without letting any blood or getting his wife.

THE WEDDINGS CAME IN A LUMP

Two Justices Perform Ceremonies At The Same Time Today.

Janesville was the Gretna Green for two happy couples today and four hearts now beat as two while a quartette of souls are as but a double thought. It was about 10:30 o'clock when Linn S. Waldon and Miss Margaret M. Tefft and Albert D. Mather and May G. Crotty sauntered into the hallway of the carpenter block.

"M. P. Richardson Justice of the Peace" was the sign that greeted the eyes of Mr. Waldron.

"This is the place we are looking for," he remarked and he and Miss Tifft soon stood before the justice with their right hands clasped. They answered all questions satisfactorily and were soon wedded, the groom giving his occupation as a farmer and his age as twenty-nine, and the town of Beloit as his home, while the bride gave her age as twenty-four and said she was a resident of Winnebago County, Ill.

In the meantime Mr. Mather and Miss Crotty didn't know just what to do. Justice Richardson couldn't marry two couples at once, but just as they were about to sit down and wait for him to finish tying the first knot, they espied the sign on Justice Prichard's door. Then they looked relieved and walked in. It didn't take long to explain their business and tell the justice that they were both from Monroe, that they were of legal age, and that there was no reason why should not be wedded. The two ceremonies were performed at the same time and Mr. and Mrs. Waldron and Mr. and Mrs. Mather reappeared at the office doors at the same moment and descended the stairs as they had ascended—together.

Flour Up.

The quotations show that flour is going up. The combines are pushing up the price, but we are not. Ceresota flour, the only flour that sells in Europe for 10 cents a barrel more than any other flour cannot be purchased today for less than $3.85 a barrel. We expected this, and put in a supply, so that we are continuing to sell at $3.60 a barrel, or 90 cents a sack. Grubb Bros.

H. H. HAVENS, who has been in the employ of the Western Union Telegraph Company in this city, expects to leave for his home in Thawville, Ill., next week.

MRS. S. J. LEARNED who has been visiting in the city the guest of Superintendent and Mrs. S. D. Mayne, left this morning for Beloit.

NEXT Saturday we will sell six ten cent cakes toilet soap for twenty-five cents. Prentice & Evenson.

No tariff on spring suits at Ziegler's this year. $15 suits are being sold at $8.

KLINGBERG PLEADED GUILTY

Sentenced For Five Months In Jail—Other Court News.

Louis Klingberg will serve five months in the county jail as his punishment for implication in the Northwestern car robbery last February. Klingberg was brought into the municipal court this afternoon, and was discharged on the charge of burglary, and that of larceny of twenty dollars worth of goods belonging to the Chicago & Northwestern railroad, filed in its place. To this charge Klingberg pleaded guilty and Judge Phelps sentenced him as above.

The case against the Johnson brothers was continued until May 27.

Charles McDonough and Fritz Dunnagan were each arraigned for drunkenness. Both pleaded guilty and were fined $5 and costs or five days in jail. Neither had money, and consequently were committed.

William Johnson and William Roberts, the names under which two vagrants were registered, were brought into the municipal court this afternoon, pleaded guilty, and were each given five days at the county jail.

CONDUCTOR HOGAN "LET OUT."

The "Spotter" Took the Form of a Lawyer This Time."

The Northwestern company seems to be "getting in their work" in good style in the way of discharging their conductors. Thomas Hogan, of this city, is the latest absentee. He had charge of a freight train between this city and Juneau, and while pulling out of Watertown, a stranger boarded the caboose, and said he was a lawyer, and had to make the next town. Rather than stop the whole train, he was allowed to ride to the next town, and offered the trainmen money, but they refused it. On leaving the car he threw down half a dollar, telling them to treat themselves. When Mr. Hogan reached Janesville, he was informed that his services were needed no longer.

W. J. HAHN IS AGAIN ARRESTED.

Albany Man, They Say, Persists In Selling Liquor Illegally.

A dispatch from Monroe says that William J. Hahn, who is well known here, and proprietor of the notorious "camp 20" at Albany, still persists in selling liquor without a license, and two separate actions charging the illegal sale of liquor were served upon him here to-day. There are two other cases to be tried in justice court May 16, and there are several cases still pending in the circuit court, among them the somewhat celebrated riot case. The hearing was refused by Court Commissioner John Luchsinger this afternoon and he was held to bail on both charges.

INSPECTED OAK LAWN YESTERDAY

Southworth, the new pastor of All Souls church, will occupy the residence this summer, and has charge of the property during his residence at Oak Lawn. The directors hope to be able to reopen the hospital this fall.

HIT ON THE LEG BY AN IRON BAR

Gustave Plach Was Injured While Working at Miltimore's Quarry.

While working in the Miltimore stone quarry, Gustave Plach was struck a terrific blow on his right leg, with an iron drill. Mr. Plach was drilling a hole in the rock when the drill slipped, striking him with full force below the knee. He was at once taken to the office of Dr. Chittenden and was resting as comfortable as could be expected last evening at his Armour street home.

245 Cases Shoes.

A wholesale house could not have presented a greater sight than that in front of Becker & Woodruff's to-day. All day long, almost, Eugene Fish was busy unloading cases of shoes. Pedestrians stopped and asked what was going on; were Becker & Woodruff moving, or were those empty cases? But when told that each and every case was full of the best makes of shoes the country produces, and that there were 245 cases, $12,000, in round numbers, they were simply surprised beyond utterance. It don't seem possible that this many shoes can be handled in a city the size of Janesville, but when one takes into consideration the high grade of shoes and the low prices this firm will sell at, it will not take long to come to the conclusion that two months will do the work. The much talked of Fond du Lac stock is here, unloaded and will be, by working day and night, unpacked, marked and ready for you Saturday at Becker & Woodruff's.

RIGHTS TO WATER WILL BE DECIDED

CAPTAIN RUGER NAMED AS COMMISSIONER.

He Will Investigate the Differences Between the Woolen and Cotton Mills Companies, and His Report Will Have Much To Do with Settling the Power Litigation.

The legal rights of users of water at the "lower water power" are now being investigated by Captain Edward Ruger. When the case of Jonathan Ellis of the woolen mills, against the Janesville Cotton Company, et al., came up before Judge Bennett this morning, an order was issued appointing Captain Edward Ruger commissioner to examine and report as to the rights of the respective parties regarding the use of water, and also as to what method should be adopted for measuring and delivering the water. The report of Captain Ruger will have much to do in settling the litigation now pending as to the rights of the several owners of the water power at Monterey.

THE DRY EXTRACT CO.,

Gentlemen:—

We value **Milkine** very highly. We had tried feeding our baby on milk and other food. She always seemed hungry and did not thrive at all. We were advised by a friend to try Milkine, This agreed with her perfectly. She is now growing and is strong and healthy. We believe Milkine to be superior to anything of the kind for children.

Yours respectfully,
MRS. N. E. BIGLEY.

BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN THE CONTEST.

Five Shares of Stock In the Rock County Building Loan and Savings Association Will be Given the Winner June 1—Value at Maturity Is $500 and It Is Non Assessable.

The polls for The Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with $500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it.

It will buy an education.

It will buy a buy a building lot.

It will buy a piano and the lessons necessary to play upon it.

It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for $500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Cut the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to to Ballot Editor. Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Asssociation. cash value, $500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more that three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

A Blessed Deliverance.

This is effected when the hostile disturbance of the liver, known as biliousness, ceases through the benign operation of Hostetter's Stomach Bitters. Pain in the right side and under the right shoulder blade, yellowness of the skin and eyeballs, "fur" upon the tongue, morning nausea, vertigo, sour breath, irregularity of the bowels and sick headache, are among the distressing symptoms which take their departure when the great antibilious medicine is resorted to. Chills and fever, kidney and bladder trouble, rheumatism, dyspepsia and nervousness are also remedied by the Bitters, which is also a superb tonic and promotor of sleep and appetite. Use the Bitters persistently and not by fits and starts. Speedy good results will follow.

If the Baby is Cutting Teeth,

Be sure and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

TELLS A WOMAN'S STORY.

Written for Eyes of Other Women.

[SPECIAL TO OUR LADY READERS.]

There is inestimable pleasure in doing good to others, and joy in a grateful recognition of the act.

On the old York Road, Huntington Park, Philadelphia, dwells Miss M. Downs, whose portrait we give. She desires that her case may be stated as a means of benefiting others. She says: "*Lydia E. Pinkham's* Vegetable Compound has cured me of Kidney trouble, painful menstruations, and headaches. It is truly a wonderful medicine. I cannot describe my feelings before I took it. The pain in my back was dreadful, and during menstruations the agony I suffered nearly drove me wild; and then my head would ache for a week, and now this is all over, thanks to your good remedy. I trust my testimonial will lead others to take it and be cured. They can find it at any drug store. Our druggist says the demand for it is very large, it is helping so many sickly women."

MONEY MADE AT HOME.

Last month I cleared, after paying all expenses, $235.38; the month before $186.86 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for $5 you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer work, they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co. Station O. Englewood, Ill. I feel convinced that any lady or gentleman, in any location can make $5 to $10 a day, as every family will very soon have a dish washer. Try it and publish your experience for the benefit of others. No wonder we grow now in the public's confidence every hour. We don't believe, as Barnum did, and evidently as many still do, that the people want to be hum-bugged. No fairy tale advertisements. No catch penny methods here. Nothing but strictly legitimate shoes go. Our belief is in devoting all our power and energy to give our patrons the needs of the feet at bottom prices. There is no question about our being successful. Our advertisements are calculated to increase confidence, not to cause disappointment.
